## EDUCATION

**Techno Main Salt Lake**  
Information Terchnology BTech  
CGPA: 7

Kolkata, West Bengal  
September 2022 - June 2026

**RK Sarvoday +2 School**  
Science with Math Intermediate  
Percentage: 90.6%

Begusarai, Bihar  
June 2019 - April 2021

## EXPERIENCE

### IIC TMSL College Club | Frontend Developer

Kolkata, India | April 2024 - Present

- Designed and managed a responsive website for the college club functions and provided layout which supports the easy flow of information within the site.
- Linked up with fellow club members during frontend development, allocating assignments and making decisions on design and functionality.
- Improved and refined web pages for faster loading times, helping to decrease lag and enhancing user satisfaction.
- Worked towards the development of interfaces which are not only easy to use but also are easy on the eye in terms of visual organization and the flow of interactions thus enhancing the experience of the users.

## SKILLS

Programming Languages: C++, C, JavaScript, Python(Basic), HTML5, CSS3  
Libraries/Frameworks: React, Tailwind  
Tools / Platforms: Git, VS Code

## PROJECTS / OPEN-SOURCE

### AdminDashboard | [Link](#)

JavaScript, CSS, HTML, React, TailWind, SyncFusion

- Developed a multi-functional admin dashboard featuring a main eCommerce site, three management pages, and five mini apps to streamline business operations.
- Added five interactive mini apps, including a Weather app, Color Picker, and more, providing essential tools for enhanced productivity.
- Implemented eight interactive graphs (Pie, Line, Area, etc.) to present business insights, enabling quick analysis of key metrics and trends.

### bankModernApp | [Link](#)

JavaScript, CSS, HTML, React, TailWind

- Developed a modern banking UI using HTML, CSS, Tailwind, and React to create a sleek, user-centric design for an online banking platform.
- Built reusable React components for features like transaction history, fund transfers, and account management, improving efficiency and maintainability.
- Utilized Tailwind CSS to quickly style and customize the UI, ensuring a clean, professional look.
